

# John Doe

Software Engineer | Product Manager | Tech Enthusiast  
johndoe123

## Summary

Passionate software engineer with 5+ years of experience building web and mobile applications. Currently focusing on AI-driven solutions.

## Work Experience

### Tech Innovations Inc.

Senior Software Engineer

Jan 2023 - Jan 1970

Leading the development of the company's flagship product, a SaaS platform for business analytics. Implemented microservices architecture that improved system reliability by 40%. Mentored junior developers and conducted code reviews to ensure code quality. Collaborated with product and design teams to deliver features that increased user engagement by 25%.

Software Engineer

Mar 2021 - Jan 2023

Developed and maintained RESTful APIs using Node.js and Express. Built responsive front-end interfaces with React and TypeScript. Implemented automated testing that reduced bug reports by 30%. Participated in agile development processes including daily stand-ups and sprint planning.

### StartUp Solutions

Junior Developer

Jun 2019 - Mar 2021

Assisted in the development of web applications using JavaScript and PHP. Implemented UI components following design specifications. Participated in code reviews and bug fixing processes.

## Education

Master of Science - MS

Sep 2017 - May 2019

Stanford University

Specialized in Machine Learning and Distributed Systems. Thesis on 'Optimizing Neural Networks for Edge Computing Applications'

Bachelor of Science - BS

Aug 2013 - May 2017

University of Texas at Austin

Coursework included Data Structures, Algorithms, Computer Architecture, and Software Engineering

## Skills

JavaScript

React

Node.js

TypeScript

Python

Machine Learning

## Volunteering

Code for Good

Jun 2020 - Dec 2022

Tech Mentor

Mentored underrepresented youth in software development skills. Organized monthly workshops teaching web development basics. Helped develop curriculum for after-school coding programs reaching over 200 students annually.
